FEATURE 1 OF 1

Timeline zoom on the Gantt views

WHAT IT IS

Zoom controls on every Gantt timeline let you expand or condense how many days are visible — zoom in for a tight look at a busy week, zoom out to see the whole schedule.

WHERE TO ACCESS IT

Any Gantt timeline — an edit's Timeline tab, the project Gantt share link, or the Full Pipeline view. Controls sit at the top right of the chart.

HOW TO USE IT

- 1. Open any Gantt timeline view.
- 2. Click + to zoom in (fewer days, more detail) or – to zoom out (more days visible).
- 3. Click Fit to snap back to the full schedule.
