PROFI — PROJECT FINANCE

7 FEATURES

- F1 Add Invoice — request form with saved contacts** see F1 in appendix
The VCC's Add Deposit button is now Add Invoice: a full request form (deposit #, amount, send-to, CC, 35-character description) that emails the details to billing@unbridledmedia.com and records the request.
Where: ProFi → open a project → VCC → Client Deposits → + Add Invoice
- F2 Project Estimate PDF** see F2 in appendix
A client-ready Project Estimate generated straight from the budget on the Unbridled template.
Where: ProFi → open a project → Client Budget → Project Estimate PDF
- F3 Share Budget Options** see F3 in appendix
One pop-out for every client-facing view of the budget, opened from the Share Budget Options button on the Finance page.
Where: ProFi → open a project's budget → Share Budget Options (top right)
- F4 VCC PDF — a finance-ready cover summary** see F4 in appendix
The VCC now exports a clean PDF from the button beside Vendor Invoices.
Where: ProFi → Reports → VCC → open a project → PDF (left of Vendor Invoices)
- F5 Reconciliation Calculator — variance at a glance** see F5 in appendix
A Reconciliation Calculator on the VCC ties posted and unposted costs together.
Where: ProFi → Reports → VCC → open a project → Reconciliation Calculator
- F6 Total by Category on the VCC** see F6 in appendix
The old 'Breakage by Category' box is now 'Total by Category', moved up to where the shoot total used to sit, with any per-shoot totals lined up to its right.
Where: ProFi → Reports → VCC → open a project → Total by Category
- F7 Harbinger — guided project-initiation wizard** see F7 in appendix
The Harbinger kickoff is now a step-by-step wizard instead of one long form.
Where: ProFi → open a project → Finance → Submit Harbinger (fires when a budget moves to Live)

FREEPRO — PRODUCTION

16 FEATURES

- F8 Checklists — custom groups, items, and deletes** see F8 in appendix
Each of the four Logistics checklists (Recap, Interviews/B-Roll, Commercial/Creative, What to Bring to Set) can now be shaped per project: add your own groups, add items into any group (built-in or custom),...
Where: FreePro → open a shoot → Logistics → Producer Checklist
- F9 Per-shoot Gear tab — Person Responsible + DIT drives** see F9 in appendix
The shoot's Gear Management tab now leads with who owns the gear: the Person Responsible for Gear picker sits at the top, with a DIT — Drives tile directly beneath it for tagging hard drives to this shoot.
Where: FreePro → open a shoot → Gear → Gear Management
- F10 Talent call times feed the Schedule** see F10 in appendix
Individual talent call times now live on the schedule instead of a column on the crew sheet.
Where: FreePro → open a shoot → Crew → talent's Edit form → Call Times by Day (shows on Logistics → Schedule)
- F11 Gear request availability — reservations subtracted** see F11 in appendix
The equipment picker in the gear request form now shows what's actually available for your dates, not just what exists.
Where: Gear Report → + New Gear Request → any department's + Add Gear picker (also on a shoot's Gear Request tab)
- F12 Travel — Driving with schedule tiles** see F12 in appendix
A Driving section on the Travel tab (below Rental Cars) for crew driving to a shoot.
Where: FreePro → open a shoot → Logistics → Travel → Driving → + Driver
- F13 Room/Space quick-fill on schedule events** see F13 in appendix
Every Room/Space you've entered on a shoot's schedule is remembered for that shoot and offered back as one-click chips (and typing suggestions) under the field on both the add and edit event forms — so 'Ball...'
Where: FreePro → Schedule → + Add Event / edit an event → Room / Space

F14	Travel forms pull the full roster Crew dropdowns across the Travel tab — flights, hotel confirmations, rental cars, and drivers — now offer everyone: people assigned to the shoot first (with their position), then the full company roster. Where: FreePro → Travel → any Add Flight / Add Confirmation / Add Rental Car / Add Driver form	see F14 in appendix
F15	Schedule tiles — addresses right, drive times built in Event tiles on the internal schedule and all shared views (producer, crew, client) put the location's address on the right side of the tile, with an estimated drive time from the previous stop directly under... Where: FreePro → Schedule, and every shared schedule view	see F15 in appendix
F16	Catering — Delivery checkbox & reservations as driving stops Catering forms get a Delivery checkbox (top right) and the time field is now Reservation/Delivery Time. Where: FreePro → Schedule → + Catering/Meals (or the Catering/Meals page)	see F16 in appendix
F17	One-off event locations with live place search Event forms take a one-off location without touching the Locations tab: an '...or type a one-off location' field under the Location dropdown live-searches real places. Where: FreePro → Schedule → + Add Event / edit an event → Location	see F17 in appendix
F18	Jump to Live + pulsing live events On producer, crew, and client links, any event whose time block is happening right now pulses an orange left edge — and a Jump to Live button (with a matching pulsing dot) sits under Jump to Schedule. Where: Any producer, crew, or client share link	see F18 in appendix
F19	Swipe left for phone reminders On a phone, swipe any timeline tile left in producer, crew, or client view to reveal an orange +Reminder button. Where: Any producer, crew, or client share link on a phone	see F19 in appendix
F20	Live pulse everywhere — internal schedule + in-air flights The pulsing orange live edge now runs everywhere, not just on share links. Where: Project → Schedule, plus producer, crew, and client share links	see F20 in appendix
F21	Multiple of the same position, auto-numbered You can now add more than one of the same crew position to a project — a second On-Site Editor, a third Camera Operator, and so on. Where: FreePro → Logistics → Crew → + Add Position	see F21 in appendix
F22	Add Deliverable — full field parity with the edit card The Add Deliverable form now carries every field the AvocadoPost edit card has — Video Title, Description, Status, Type, Category, Lead Editor, Project Manager, Creative, Aspect Ratio, Resolution, Frame Rate... Where: FreePro → open a project → Deliverable tab → + Add Deliverable	see F22 in appendix
F23	Dark Day — a new Key Date type Key Dates now include a 'Dark Day' option alongside Shoot Day and the other day types, so travel days, prep days, or rest days between shoots can be labeled clearly on the project timeline. Where: FreePro → open a project → Overview → Key Dates	see F23 in appendix
