

What's New — Feature Index

Unbridled Operating Platform · 64 features · grouped by page · screenshots in the appendix

THE HUB		13 FEATURES
F1	Hub: Project View / Operations View toggle The hub now has two modes. Where: The hub (home page) — the toggle sits centered under "Where to today?".	see F1 in appendix
F2	Hub dashboard — Day in Review & Team Today The lower half of the hub is now a live dashboard. Where: The hub (home page), below the tiles — visible in both Project View and Operations View.	see F2 in appendix
F3	My Tasks on the hub dashboard Tasks tagged to you on any Project Overview follow you home: the Day in Review panel on the hub now has a My Tasks section listing your open tasks with a checkbox, the task and its project, and the due date... Where: The hub (home page) → Day in Review panel, below today's items.	see F3 in appendix
F4	Testing — Feedback & Features button A big red button at the very top of the hub opens the team's one running checklist for testing feedback and feature requests. Where: The hub (home page) — the red button above everything else.	see F4 in appendix
F5	Day in Review — today's date, Coming Tomorrow, and in-progress work The Day in Review panel now shows today's date under its header, mirrors everything from the Crew Calendar that spans today (green "Edit in progress" and "Working: ..." rows alongside shoots, due dates, and PT... Where: The hub (home page) → Day in Review panel.	see F5 in appendix
F6	Team Today — two columns and STL/DEN Only handling The Team Today roster now lists in two columns (one on phones), halving the tile's height. Where: The hub (home page) → Team Today panel.	see F6 in appendix
F7	Admin role preview (View as...) Admins can preview the entire platform exactly as any other role sees it — Producer, Finance, Crew, Agency, or Client — without signing out. Where: Hub header, next to the Backup button: the 'View as...' dropdown. A purple banner at the top of every page shows which role you're previewing.	see F7 in appendix
F8	Start a new project from the hub A Start New Project button on the hub opens the New Project form and drops you straight into the new project's view — no need to detour through Finance first. Where: The hub in Project View — the green Start New Project button sits just below the Project View / Operations View toggle.	see F8 in appendix
F9	My Tasks quick-add — with teammate tagging Add a task to your own list straight from the Hub, without opening a project. Where: Hub → Day in Review → My Tasks → + Add New.	see F9 in appendix
F10	Daily personal greeting on the Hub The plain username is gone — the Hub now greets you with one fun, personal line each day, written fresh from what the platform knows: upcoming travel gigs, PTO countdowns, your MediaMoment answer, your home... Where: Hub — centered above the Unbridled Media logo.	see F10 in appendix
F11	MediaMoment — weekly questions & the daily blob Team fun facts, institutionalized. Where: Hub — the question pops up on your first visit of the week; the blob appears over Team Today once per day.	see F11 in appendix
F12	Ways of Being — weekly shoutouts Culture, built in. Where: Hub — the prompt appears for the two chosen people each week; recipients see their banner under the daily greeting. Admins: Reports → Ways of Being.	see F12 in appendix
F13	Simplified Hub navigation The hub trimmed down to one pill: View ▼ (pick Project View or Operations View from a dropdown), Calendar (the crew calendar), and Reports — with Start New Project standing alone. Where: The Hub — front and center.	see F13 in appendix

F14	Project Hub & Client Hub on Project View Project View is now split into two sections, each with its own search bar. Where: Hub → Project View toggle (or the standalone Project View page). Client tiles sit below the project tiles.	see F14 in appendix
F15	Client Hub password Each client hub now has its own password, set from a button right of the Team View / Client View toggle. Where: Project View → any client's hub → the  button next to the view toggle.	see F15 in appendix
F16	Project Overview — cover page with call notes & to-dos Every project in Project View now opens on an Overview tab: a cover page showing the budget status, each shoot with dates and status, post-production at a glance (every edit with its pipeline status), and a... Where: Hub → Project View → any project (Overview is the first tab and the default).	see F16 in appendix
F17	Creative Docs on the Project Overview The Overview's right column has a Creative Docs tile for the project's creative brief and VPP. Where: Hub → Project View → project → Overview tab → Creative Docs tile (above To-Do).	see F17 in appendix
F18	Task polish — initials chips, notes, and due badges Project tasks got a round of polish. Where: Project Overview → To-Do column, and the hub's Day in Review → My Tasks.	see F18 in appendix
F19	Tag Unbridled crew on project to-dos Assign any Project View to-do to an Unbridled crew member. Where: Project View, Overview tab, the To-Do panel on the right — click the + chip on any task.	see F19 in appendix

F20	Budget Tags — share visibility on a project Tag teammates onto any project budget so it's clear who's working it. Where: ProFi → open any project budget → the header row next to Status (labeled "Tagged").	see F20 in appendix
F21	Show My Projects filter on the Finance pipeline One click filters the Project Finance list down to only the budgets you own (Budget Owner) or are tagged on — no more scrolling everyone else's projects. Where: ProFi → Project Finance page → top right, next to + New Project.	see F21 in appendix
F22	Project Workspace — Finance, Pre-Production & Post in one view Opening a project from Project View lands in a single workspace where you flip between the full ProFi budget, the FreePro production page, and the AvocadoPost project page. Where: Hub → Project View → click any project tile.	see F22 in appendix
F23	Budget status paths (RFP → Live/Dead, Live → Reconcile/Closed) The budget status dropdown now guides the workflow instead of listing every status. Where: ProFi → any project budget → the Status pill in the header row.	see F23 in appendix
F24	Archive organized by Closed / Dead and by year The Archive folder separates finished work from dead RFPs, and closed budgets are filed by year so the archive stays browsable as it grows. Where: ProFi → Project Finance → the Archive folder chip.	see F24 in appendix
F25	Vendor Invoices on the VCC (with AI reading) Each project's VCC now has a Vendor Invoices library: upload the actual invoice files and they live with the project. Where: ProFi → project budget → VCC tab → the  Vendor Invoices button on the right of the toolbar.	see F25 in appendix
F26	Budget Overview (renamed, counts crew correctly) The client-facing summary on each budget is now called Budget Overview (it stays "Estimate Overview" on estimates). Where: ProFi → project budget → the Budget Overview button (top of the budget); in Estimate mode, the Estimate Overview button.	see F26 in appendix
F27	Client roster with duplicate detection The Client field on budgets is now a searchable dropdown backed by a company-wide client roster, so every project uses the exact same client spelling (which keeps Client Hubs from splitting). Where: ProFi → + New Project, or any budget →  Edit → the Client field.	see F27 in appendix
F28	Overview budget tile — status, totals, and client identity The Overview's budget tile is now a slim strip: Budget Status on the left, the running totals on the right — Budget (the live ProFi budget total) and Est Fee (the billable profit from the VCC: budget total m... Where: Hub → Project View → project → Overview tab.	see F28 in appendix

F29	Harbinger — designed report & full review before submit The Harbinger email is now a designed HTML report from info@unbridledmedia.com (recipients editable in Automations), and submitting one shows the entire Harbinger for a final read first — with the AI-drafted... Where: ProFi — Submit Harbinger on any RFP budget.	see F29 in appendix
F30	Budget client contact & Est. Final Delivery Each budget header now carries a Client Contact (name shows in ProFi; email and address ride along into the Harbinger) and an Est. Where: ProFi — the budget header row.	see F30 in appendix
F31	Unbridled Solutions toggle Solutions-specific fields now hide until you need them. Where: ProFi — budget header, left of Submit Harbinger.	see F31 in appendix
F32	Client Budget — pick Line Items or Buckets on send The standing Line Items/Buckets toggle is gone from the budget header. Where: ProFi — the Client Budget button on any budget.	see F32 in appendix
F33	Client Deposits — multiple deposits per project The VCC deposits tile is now simply Deposit and Final Invoice, with a + Add Deposit button for as many additional deposits as a project needs. Where: ProFi — any project, VCC tab, the Client Deposits tile.	see F33 in appendix
FREEPRO — PRODUCTION 16 FEATURES		
F34	Printer-friendly PDFs (shot lists & call sheets) Exporting a shot list or call sheet now produces a clean, high-contrast report instead of a screen print: white pages, black text, no browser URL/title stamped at the top and bottom, interactive buttons remo... Where: Any shared view (shot list, call sheet) → the PDF button in the top bar, or your browser's Print.	see F34 in appendix
F35	Edit / override location addresses Location addresses on a FreePro project are no longer locked to what the map search fills in. Where: FreePro → any project → Overview tab → Locations → the 📍 on a location row.	see F35 in appendix
F36	Reference photos on the Shot List Every shot can now carry reference photos — framing references, location stills, storyboard frames. Where: FreePro → project → Logistics → Shot List. Upload from a shot's expanded detail (or its pop-out on mobile); browse the Reference Photos section at the bottom of the page.	see F36 in appendix
F37	Additional Docs — reference documents on every shoot A new Additional Docs tab under FreePro's Logistics dropdown stores reference documents for the shoot — lighting grids, show flows, floor plans, run-of-show decks. Where: FreePro → project → Logistics → Additional Docs. Crew/producers see them on their shared call sheet views.	see F37 in appendix
F38	Travel/Local flag on the crew roster Every crew member can be flagged Travel (default) or Local. Where: FreePro → project → Crew tab (form + grid), and the Roster Lookup in Team Management.	see F38 in appendix
F39	Schedule events for specific crew The Add Event pop-out on the schedule now lets you target events at individual crew members. Where: FreePro → project → Logistics → Schedule → + Add Event (or editing an event).	see F39 in appendix
F40	Agency role A new user role for agency partners. Where: User Management (set a user's role to AGENCY). Agency users open projects from the FreePro tile; each project shows the Logistics dropdown (Schedule, Travel, Shot List, Additional Docs), Gear, and Deliverable.	see F40 in appendix
F41	Travel / Local, clickable everywhere Mark any crew member or talent as Travel or Local and flip it with one click. Where: A project's Crew tab. The Travel/Local badge sits in the Travel column of both the crew positions table and the Talent list. The same switch is pinned to the top-right of the Add Position, crew Edit, Add Talent, and Edit Talent forms.	see F41 in appendix
F42	Travel tag on schedule events Schedule events can now carry a Travel tag. Where: A project's Schedule tab. Add an event or edit an existing one, then use the Tags row near the bottom of the form.	see F42 in appendix
F43	Review any call sheet before sending Preview the exact call sheet each recipient will get, right from the email screen. Where: A project, then Send Call Sheet Emails. A Review button sits on every recipient row across the Producers, Crew, Client, and Talent groups.	see F43 in appendix

F44	Arrival notes on locations Every location can carry Arrival Notes — parking, entrance, check-in, loading dock — and they show up wherever the location appears, including the crew, producer, and client call sheets. Where: A project's Overview tab, in the Locations section. Add a location or edit an existing one to find the Arrival Notes field.	see F44 in appendix
F45	Gear Management overview & per-shoot dashboards Gear Management is now a report of every production shoot, sorted by start date, with a calendar timeline up top. Where: FreePro → Gear Management (toggle at the top of the Production Management page).	see F45 in appendix
F46	Gear Request tab The gear request form is now its own tab at the top of the Gear dropdown on a shoot. Where: FreePro → open a shoot → Gear dropdown → Gear Request.	see F46 in appendix
F47	Crews — schedules & call sheets by unit Split a shoot into named crews (e.g. Where: FreePro → open a shoot → Logistics → Crew (Crews row up top), Schedule (crew chips on events + Per-Crew Overrides in the day header), and Share ▼ for the per-crew links.	see F47 in appendix
F48	Space maps on the Locations tab Floor plans and room maps now live right on the Locations tab — the separate Room/Space Info tab is gone. Where: FreePro → open a shoot → Logistics → Locations.	see F48 in appendix
F49	Contractor email — full SOW, autofilled, reviewed before sending Send Contract now opens a review of the complete contractor email — project code, position, travel locations, dates & day rate, quoted total, travel expense allowance and per diem (both pulled from the budge... Where: FreePro → Crew tab, Send Contract on any contract crew slot.	see F49 in appendix
AVOCADOPOST — POST-PRODUCTION		10 FEATURES
F50	Drive field on the edit form Each AvocadoPost edit now records which drive its media lives on, right next to Category on the edit form. Where: AvocadoPost → open any edit → the Drive field beside Category.	see F50 in appendix
F51	Customizable grids on Avo project pages Every tab on an Avo project page (Video Tracker, To-Do List, Music Options, Lower Thirds) is now a customizable grid: add your own text columns, merge cells into blocks, drag rows and columns into any order,... Where: AvocadoPost → Project Lookup → open a project → any tab. The toolbar sits under each grid.	see F51 in appendix
F52	Custom tables on Avo project pages Build your own tables on any Avo project page. Where: AvocadoPost → open a project page → + Add Custom Table at the end of the tab row.	see F52 in appendix
F53	Column filters on every Avo grid Every column header on every Avo grid — built-in tabs and custom tables — has a small ▼ filter icon. Where: Any Avo project page tab → the ▼ icon beside each column name.	see F53 in appendix
F54	Video Tracker — Types, grouping, and Add Deliverable The Project Video Tracker's Type column is now a dropdown — Pre-Event, On-Site, Post-Event, or Standard Edit — and the tracker groups its rows into colored sections in that order (untyped videos collect unde... Where: AvocadoPost → Project Lookup → project → Project Video Tracker tab.	see F54 in appendix
F55	Deliverables and Post-Production are one form The FreePro Deliverables page and the AvocadoPost pipeline now share a single form and stay identical. Where: FreePro → project → Deliverable tab; the same form opens from the Avo tracker's + Add Deliverable.	see F55 in appendix
F56	Timeline tools — Skip milestones and Copy Timeline From Two additions to an edit's Timeline Dates. Where: AvocadoPost → any edit → Timeline view.	see F56 in appendix
F57	Cleaner post-production timelines Milestone pills on the Gantt timelines (the public share, the Avo Gantt, and the edit page) no longer overlap. Where: AvocadoPost → an edit's Share Public Timeline link, the Gantt page, or the chart on the edit itself.	see F57 in appendix
F58	Timeline zoom on the Gantt views Zoom controls on every Gantt timeline let you expand or condense how many days are visible — zoom in for a tight look at a busy week, zoom out to see the whole schedule. Where: Any Gantt timeline — an edit's Timeline tab, the project Gantt share link, or the Full Pipeline view. Controls sit at the top right of the chart.	see F58 in appendix

F59	Editor PTO / OOO conflict flags on the edit timeline AvocadoPost now cross-checks every timeline date against the lead editor's PTO and OOO requests from Team Management. Where: AvocadoPost → open an edit → Timeline view. Flags appear automatically on conflicting dates.	see F59 in appendix
------------	---	---------------------

REPORTS	3 FEATURES
----------------	-------------------

F60	Reports section (Project Finance Overview moved here) A new Reports area on the hub collects cross-project rollups. Where: Hub → the  Reports button at the top, next to Crew Calendar.	see F60 in appendix
F61	Invoice Search report A cross-project invoice finder in Reports. Where: Hub →  Reports → Invoice Search.	see F61 in appendix
F62	Client Invoice Report Every live and closed project's client invoicing in one report: first invoice, extra deposits, and final invoice with sent/unsent status, total budget, and close month — grouped by close month, filtered by y... Where: Reports → Client Invoice Report.	see F62 in appendix

EMAILS & AUTOMATIONS	2 FEATURES
---------------------------------	-------------------

F63	Automations dashboard (Admin) Every email automation on the platform in one place: where each one sends from, who it goes to, and a live preview of what the email looks like. Where: Hub — bottom of the page, next to User Management (Admin only).	see F63 in appendix
F64	Branded email design across every notification Every automated email now shares one design: dark Unbridled Media header, colored hero, labeled detail rows, action buttons, quick-copy link boxes, and a postmark timestamp. Where: Everywhere email goes — preview any of them from the Automations dashboard.	see F64 in appendix
