

|     |                                                                                                                                                                                                                                                                                                                                                                                               |                     |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| F1  | <b>Budget Tags — share visibility on a project</b><br>Tag teammates onto any project budget so it's clear who's working it.<br>Where: ProFi → open any project budget → the header row next to Status (labeled "Tagged").                                                                                                                                                                     | see F1 in appendix  |
| F2  | <b>Show My Projects filter on the Finance pipeline</b><br>One click filters the Project Finance list down to only the budgets you own (Budget Owner) or are tagged on — no more scrolling everyone else's projects.<br>Where: ProFi → Project Finance page → top right, next to + New Project.                                                                                                | see F2 in appendix  |
| F3  | <b>Hub: Project View / Operations View toggle</b><br>The hub now has two modes.<br>Where: The hub (home page) — the toggle sits centered under "Where to today?".                                                                                                                                                                                                                             | see F3 in appendix  |
| F4  | <b>Project Workspace — Finance, Pre-Production &amp; Post in one view</b><br>Opening a project from Project View lands in a single workspace where you flip between the full ProFi budget, the FreePro production page, and the AvocadoPost project page.<br>Where: Hub → Project View → click any project tile.                                                                              | see F4 in appendix  |
| F5  | <b>Budget status paths (RFP → Live/Dead, Live → Reconcile/Closed)</b><br>The budget status dropdown now guides the workflow instead of listing every status.<br>Where: ProFi → any project budget → the Status pill in the header row.                                                                                                                                                        | see F5 in appendix  |
| F6  | <b>Archive organized by Closed / Dead and by year</b><br>The Archive folder separates finished work from dead RFPs, and closed budgets are filed by year so the archive stays browsable as it grows.<br>Where: ProFi → Project Finance → the Archive folder chip.                                                                                                                             | see F6 in appendix  |
| F7  | <b>Hub dashboard — Day in Review &amp; Team Today</b><br>The lower half of the hub is now a live dashboard.<br>Where: The hub (home page), below the tiles — visible in both Project View and Operations View.                                                                                                                                                                                | see F7 in appendix  |
| F8  | <b>Reports section (Project Finance Overview moved here)</b><br>A new Reports area on the hub collects cross-project rollups.<br>Where: Hub → the  Reports button at the top, next to Crew Calendar.                                                                                                       | see F8 in appendix  |
| F9  | <b>Vendor Invoices on the VCC (with AI reading)</b><br>Each project's VCC now has a Vendor Invoices library: upload the actual invoice files and they live with the project.<br>Where: ProFi → project budget → VCC tab → the  Vendor Invoices button on the right of the toolbar.                         | see F9 in appendix  |
| F10 | <b>Printer-friendly PDFs (shot lists &amp; call sheets)</b><br>Exporting a shot list or call sheet now produces a clean, high-contrast report instead of a screen print: white pages, black text, no browser URL/title stamped at the top and bottom, interactive buttons remo...<br>Where: Any shared view (shot list, call sheet) → the PDF button in the top bar, or your browser's Print. | see F10 in appendix |

|            |                                                                                                                                                                                                                                                                                                                                                                                                              |                     |
|------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| <b>F11</b> | <b>Invoice Search report</b><br>A cross-project invoice finder in Reports.<br>Where: Hub →  Reports → Invoice Search.                                                                                                                                                                                                       | see F11 in appendix |
| <b>F12</b> | <b>Budget Overview (renamed, counts crew correctly)</b><br>The client-facing summary on each budget is now called Budget Overview (it stays "Estimate Overview" on estimates).<br>Where: ProFi → project budget → the Budget Overview button (top of the budget); in Estimate mode, the Estimate Overview button.                                                                                            | see F12 in appendix |
| <b>F13</b> | <b>Project Hub &amp; Client Hub on Project View</b><br>Project View is now split into two sections, each with its own search bar.<br>Where: Hub → Project View toggle (or the standalone Project View page). Client tiles sit below the project tiles.                                                                                                                                                       | see F13 in appendix |
| <b>F14</b> | <b>Client roster with duplicate detection</b><br>The Client field on budgets is now a searchable dropdown backed by a company-wide client roster, so every project uses the exact same client spelling (which keeps Client Hubs from splitting).<br>Where: ProFi → + New Project, or any budget →  Edit → the Client field. | see F14 in appendix |
| <b>F15</b> | <b>Client Hub password</b><br>Each client hub now has its own password, set from a button right of the Team View / Client View toggle.<br>Where: Project View → any client's hub → the  button next to the view toggle.                                                                                                     | see F15 in appendix |
| <b>F16</b> | <b>Drive field on the edit form</b><br>Each AvocadoPost edit now records which drive its media lives on, right next to Category on the edit form.<br>Where: AvocadoPost → open any edit → the Drive field beside Category.                                                                                                                                                                                   | see F16 in appendix |
| <b>F17</b> | <b>Customizable grids on Avo project pages</b><br>Every tab on an Avo project page (Video Tracker, To-Do List, Music Options, Lower Thirds) is now a customizable grid: add your own text columns, merge cells into blocks, drag rows and columns into any order,...<br>Where: AvocadoPost → Project Lookup → open a project → any tab. The toolbar sits under each grid.                                    | see F17 in appendix |
| <b>F18</b> | <b>Custom tables on Avo project pages</b><br>Build your own tables on any Avo project page.<br>Where: AvocadoPost → open a project page → + Add Custom Table at the end of the tab row.                                                                                                                                                                                                                      | see F18 in appendix |
| <b>F19</b> | <b>Column filters on every Avo grid</b><br>Every column header on every Avo grid — built-in tabs and custom tables — has a small ▼ filter icon.<br>Where: Any Avo project page tab → the ▼ icon beside each column name.                                                                                                                                                                                     | see F19 in appendix |
| <b>F20</b> | <b>Project Overview — cover page with call notes &amp; to-dos</b><br>Every project in Project View now opens on an Overview tab: a cover page showing the budget status, each shoot with dates and status, post-production at a glance (every edit with its pipeline status), and a...<br>Where: Hub → Project View → any project (Overview is the first tab and the default).                               | see F20 in appendix |

# What's New — Feature Index

Features 21–30 of 48

Unbridled Operating Platform · 48 features · screenshots in the appendix

## F21 My Tasks on the hub dashboard

Tasks tagged to you on any Project Overview follow you home: the Day in Review panel on the hub now has a My Tasks section listing your open tasks with a checkbox, the task and its project, and the due date...

Where: The hub (home page) → Day in Review panel, below today's items.

see F21 in  
appendix

## F22 Edit / override location addresses

Location addresses on a FreePro project are no longer locked to what the map search fills in.

Where: FreePro → any project → Overview tab → Locations → the 📍 on a location row.

see F22 in  
appendix

## F23 Reference photos on the Shot List

Every shot can now carry reference photos — framing references, location stills, storyboard frames.

Where: FreePro → project → Logistics → Shot List. Upload from a shot's expanded detail (or its pop-out on mobile); browse the Reference Photos section at the bottom of the page.

see F23 in  
appendix

## F24 Additional Docs — reference documents on every shoot

A new Additional Docs tab under FreePro's Logistics dropdown stores reference documents for the shoot — lighting grids, show flows, floor plans, run-of-show decks.

Where: FreePro → project → Logistics → Additional Docs. Crew/producers see them on their shared call sheet views.

see F24 in  
appendix

## F25 Testing — Feedback & Features button

A big red button at the very top of the hub opens the team's one running checklist for testing feedback and feature requests.

Where: The hub (home page) — the red button above everything else.

see F25 in  
appendix

## F26 Creative Docs on the Project Overview

The Overview's right column has a Creative Docs tile for the project's creative brief and VPP.

Where: Hub → Project View → project → Overview tab → Creative Docs tile (above To-Do).

see F26 in  
appendix

## F27 Overview budget tile — status, totals, and client identity

The Overview's budget tile is now a slim strip: Budget Status on the left, the running totals on the right — Budget (the live ProFi budget total) and Est Fee (the billable profit from the VCC: budget total m...

Where: Hub → Project View → project → Overview tab.

see F27 in  
appendix

## F28 Task polish — initials chips, notes, and due badges

Project tasks got a round of polish.

Where: Project Overview → To-Do column, and the hub's Day in Review → My Tasks.

see F28 in  
appendix

## F29 Day in Review — today's date, Coming Tomorrow, and in-progress work

The Day in Review panel now shows today's date under its header, mirrors everything from the Crew Calendar that spans today (green "Edit in progress" and "Working: ..." rows alongside shoots, due dates, and PT...

Where: The hub (home page) → Day in Review panel.

see F29 in  
appendix

## F30 Team Today — two columns and STL/DEN Only handling

The Team Today roster now lists in two columns (one on phones), halving the tile's height.

Where: The hub (home page) → Team Today panel.

see F30 in  
appendix

|------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| <b>F31</b> | <b>Travel/Local flag on the crew roster</b><br>Every crew member can be flagged Travel (default) or Local.<br>Where: FreePro → project → Crew tab (form + grid), and the Roster Lookup in Team Management.                                                                                                                                                                        | see F31 in appendix |
| <b>F32</b> | <b>Video Tracker — Types, grouping, and Add Deliverable</b><br>The Project Video Tracker's Type column is now a dropdown — Pre-Event, On-Site, Post-Event, or Standard Edit — and the tracker groups its rows into colored sections in that order (untyped videos collect unde...<br>Where: AvocadoPost → Project Lookup → project → Project Video Tracker tab.                   | see F32 in appendix |
| <b>F33</b> | <b>Deliverables and Post-Production are one form</b><br>The FreePro Deliverables page and the AvocadoPost pipeline now share a single form and stay identical.<br>Where: FreePro → project → Deliverable tab; the same form opens from the Avo tracker's + Add Deliverable.                                                                                                       | see F33 in appendix |
| <b>F34</b> | <b>Timeline tools — Skip milestones and Copy Timeline From</b><br>Two additions to an edit's Timeline Dates.<br>Where: AvocadoPost → any edit → Timeline view.                                                                                                                                                                                                                    | see F34 in appendix |
| <b>F35</b> | <b>Schedule events for specific crew</b><br>The Add Event pop-out on the schedule now lets you target events at individual crew members.<br>Where: FreePro → project → Logistics → Schedule → + Add Event (or editing an event).                                                                                                                                                  | see F35 in appendix |
| <b>F36</b> | <b>Cleaner post-production timelines</b><br>Milestone pills on the Gantt timelines (the public share, the Avo Gantt, and the edit page) no longer overlap.<br>Where: AvocadoPost → an edit's Share Public Timeline link, the Gantt page, or the chart on the edit itself.                                                                                                         | see F36 in appendix |
| <b>F37</b> | <b>Timeline zoom on the Gantt views</b><br>Zoom controls on every Gantt timeline let you expand or condense how many days are visible — zoom in for a tight look at a busy week, zoom out to see the whole schedule.<br>Where: Any Gantt timeline — an edit's Timeline tab, the project Gantt share link, or the Full Pipeline view. Controls sit at the top right of the chart.  | see F37 in appendix |
| <b>F38</b> | <b>Admin role preview (View as...)</b><br>Admins can preview the entire platform exactly as any other role sees it — Producer, Finance, Crew, Agency, or Client — without signing out.<br>Where: Hub header, next to the Backup button: the 'View as...' dropdown. A purple banner at the top of every page shows which role you're previewing.                                   | see F38 in appendix |
| <b>F39</b> | <b>Agency role</b><br>A new user role for agency partners.<br>Where: User Management (set a user's role to AGENCY). Agency users open projects from the FreePro tile; each project shows the Logistics dropdown (Schedule, Travel, Shot List, Additional Docs), Gear, and Deliverable.                                                                                            | see F39 in appendix |
| <b>F40</b> | <b>Travel / Local, clickable everywhere</b><br>Mark any crew member or talent as Travel or Local and flip it with one click.<br>Where: A project's Crew tab. The Travel/Local badge sits in the Travel column of both the crew positions table and the Talent list. The same switch is pinned to the top-right of the Add Position, crew Edit, Add Talent, and Edit Talent forms. | see F40 in appendix |

|            |                                                                                                                                                                                                                                                                                                                                                                       |                     |
|------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| <b>F41</b> | <b>Travel tag on schedule events</b><br>Schedule events can now carry a Travel tag.<br>Where: A project's Schedule tab. Add an event or edit an existing one, then use the Tags row near the bottom of the form.                                                                                                                                                      | see F41 in appendix |
| <b>F42</b> | <b>Review any call sheet before sending</b><br>Preview the exact call sheet each recipient will get, right from the email screen.<br>Where: A project, then Send Call Sheet Emails. A Review button sits on every recipient row across the Producers, Crew, Client, and Talent groups.                                                                                | see F42 in appendix |
| <b>F43</b> | <b>Arrival notes on locations</b><br>Every location can carry Arrival Notes — parking, entrance, check-in, loading dock — and they show up wherever the location appears, including the crew, producer, and client call sheets.<br>Where: A project's Overview tab, in the Locations section. Add a location or edit an existing one to find the Arrival Notes field. | see F43 in appendix |
| <b>F44</b> | <b>Start a new project from the hub</b><br>A Start New Project button on the hub opens the New Project form and drops you straight into the new project's view — no need to detour through Finance first.<br>Where: The hub in Project View — the green Start New Project button sits just below the Project View / Operations View toggle.                           | see F44 in appendix |
| <b>F45</b> | <b>Tag Unbridled crew on project to-dos</b><br>Assign any Project View to-do to an Unbridled crew member.<br>Where: Project View, Overview tab, the To-Do panel on the right — click the + chip on any task.                                                                                                                                                          | see F45 in appendix |
| <b>F46</b> | <b>Gear Management overview &amp; per-shoot dashboards</b><br>Gear Management is now a report of every production shoot, sorted by start date, with a calendar timeline up top.<br>Where: FreePro → Gear Management (toggle at the top of the Production Management page).                                                                                            | see F46 in appendix |
| <b>F47</b> | <b>Gear Request tab</b><br>The gear request form is now its own tab at the top of the Gear dropdown on a shoot.<br>Where: FreePro → open a shoot → Gear dropdown → Gear Request.                                                                                                                                                                                      | see F47 in appendix |
| <b>F48</b> | <b>Crews — schedules &amp; call sheets by unit</b><br>Split a shoot into named crews (e.g.<br>Where: FreePro → open a shoot → Logistics → Crew (Crews row up top), Schedule (crew chips on events + Per-Crew Overrides in the day header), and Share ▼ for the per-crew links.                                                                                        | see F48 in appendix |

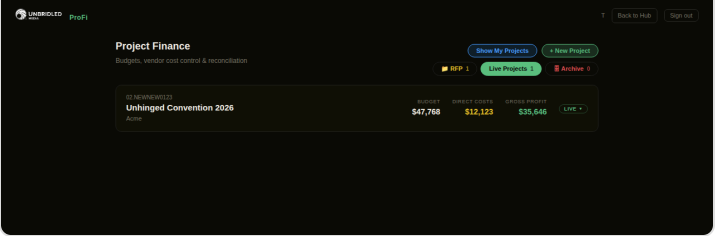

# Appendix — Screenshots

Labeled by feature code

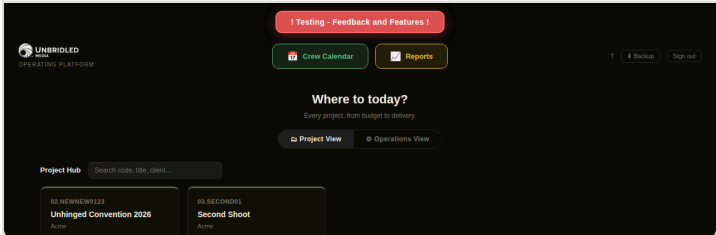

F1 • Budget Tags — share visibility on a project

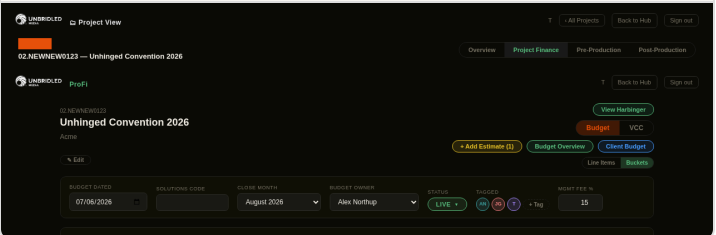

F2 • Show My Projects filter on the Finance pipeline

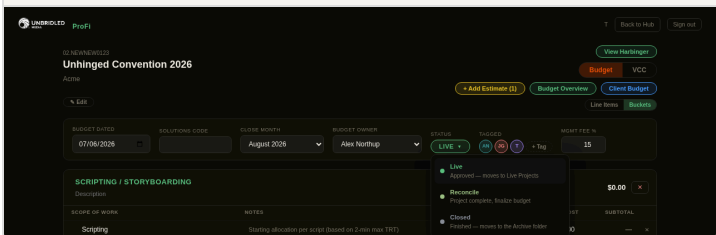

F3 • Hub: Project View / Operations View toggle

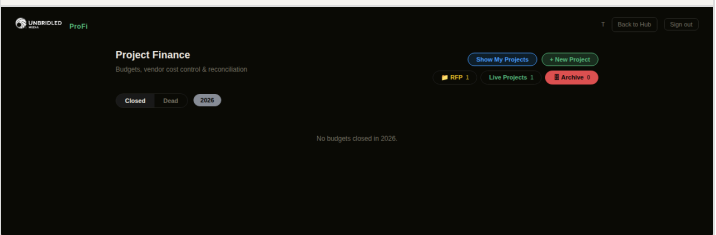

F4 • Project Workspace — Finance, Pre-Production & Post in one view

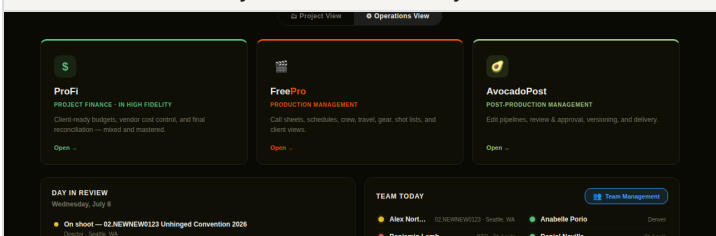

F5 • Budget status paths (RFP → Live/Dead, Live → Reconcile/Closed)

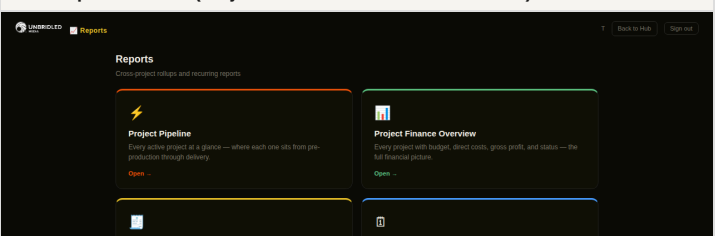

F6 • Archive organized by Closed / Dead and by year

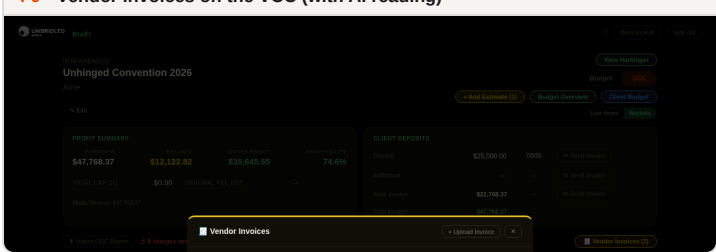

F7 • Hub dashboard — Day in Review & Team Today

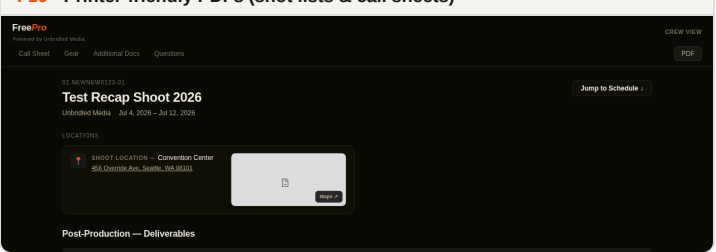

F8 • Reports section (Project Finance Overview moved here)

F9 • Vendor Invoices on the VCC (with AI reading)

F10 • Printer-friendly PDFs (shot lists & call sheets)
